WILSON BROWN SOCK COMPANY

We moved! If 2020 wasn't interesting enough, we moved our offices and warehouse in 2021! The move proved to be more challenging than we anticipated but we are now seeing benefits of having manufacturing, shipping and administration all in the same facility.

It will come as no surprise to you, but business is still presenting its share of challenges. Finding employees, rising labor costs, yarn prices increasing monthly, all make our jobs more difficult.

On the positive side, our domestic manufacturing is more price competitive than it has been in 20 years. We are working diligently on our operations to make sure we are able to provide you and your customers with quick shipments, quality products and the great customer service you have come to expect from us.

Part of this strategy was to simplify our stock offering a bit and expand our custom offering.

We continue to do our part in bringing product manufacturing and jobs back to the U.S.A. We don't do this because it's better for the bottom line or because "Made in the USA" sounds better. We do it because we value our people, our customers and our communities.
